Respected Sir,
May the grace of God almighty shine upon you.
It is my honor and great privilege to be able to write in this letter to you.

I recently saw a video on YouTube about you, which prompted me to approach you through this correspondence.

I am pursuing to setup a startup business in the Netherlands in the area of 'Data and Information Management'.

A business enterprise I am greatly passionate about and one which I feel will serve an instrumental role in the near future. In shaa Allah.

It is my hope that through your gracious spirit you could support me a little towards the attainment of this vision.

A small angel investment to what you deem as minimally suitable for you, can help me jump start the process in a formidable way.

As a token of my sincere appreciation, I would be most thankful if you would accept a chair on the board of advisors and as our Patron in Chief.

For a brief on my professional background:

I have completed studies in Computer Systems from APU Malaysia in 2000 and since been growing in the field.

Today after 14+ years of progressive growth, I provide specialized consultations to medium and large enterprises on matters pertaining to business technology implementations.

Sincerely,
Mir Moiz Moosavi
